Independent Auditors' Report

Caddo Parish Fire District No. 2 Shreveport, Louisiana

We have audited the accompanying financial statements of the governmental activities and each major fund of the Caddo Parish Fire District No. 2, a component unit of the Caddo Parish Commission, as of and for the year ended December 31, 2006, which collectively comprise the District's basic financial statements as listed in the table of contents. These basic financial statements are the responsibility of the Caddo Parish Fire District No. 2's management. Our responsibility is to express opinions on these basic financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the basic financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the basic financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall basic financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the basic financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the Caddo Parlsh Fire District No. 2 as of December 31, 2006, and the respective changes in financial position for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with Government Auditing Standards, we have also issued a report dated June 17, 2007, on our consideration of Caddo Parish Fire District No. 2's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in assessing the results of our audit.

The budgetary comparison information on pages 17–18 is not a required part of the basic financial statements but is supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

The Caddo Parish Fire District No. 2 has not presented management's discussion and analysis, which is supplementary information required by accounting principles generally accepted in the United States of America, but is not a required part of the basic financial statements.

Caddo Parish Fire District No. 2 Shreveport, Louisiana

Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds to the Statement of Activities For the Year Ended December 31, 2006

Net change in fund balances - total governmental funds	\$	93,249
Amounts reported for governmental activities in the statement of activities are different because:		
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over		
their estimated useful lives and reported as depreciation expense. This is the amount of depreciation (\$76,156) in the current period.		(76,156)
		(*** (****)
Bond issuance costs are capitalized and amortized over the life of the		
bond issue for the government-wide statements, but are reported as expenditures in the governmental funds.		(964)
The nonallocation method of accounting for prepayments is used in the		
fund statements, since the prepayment does not provide expendable		
financial resources.		(1,292)
The repayment of principal of long-term debt consumes current		
financial resources of governmental funds.		15,000
Accrued interest expense on long-term debt is reported in the government-	,	
wide statement of activities and changes in net assets, but does not require	3	
the use of current financial resources; therefore, accrued interest expense		
is not reported as expenditures in governmental funds.		2,731
Revenues in the statement of activities that do not provide current		
financial resources are not reported as revenues in the funds.		(8,788)
Change in net assets of governmental activities	\$	23,780

INTRODUCTION

The Caddo Parish Fire District No. 2 (the district) was created by the Caddo Parish Commission, as authorized by Louisiana Revised Statute (R.S.) 40:1492. The district is governed by a five member board of commissioners appointed by the Caddo Parish Commission. The Board of Commissioners received no compensation during 2006. The district is responsible for maintaining and operating fire stations and equipment and providing fire protection within the boundaries of the district.

(1) Summary of Significant Accounting Policies

The Caddo Parish Fire District No. 2's financial statements are prepared in conformity with generally accepted accounting principles (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations). The more significant accounting policies established in GAAP and used by the Caddo Parish Fire District No. 2 are discussed below.

A. Reporting Entity

The district is a component unit of the Caddo Parish Commission, the financial reporting entity. The Commission is financially accountable for the district because it appoints or ratifies a voting majority of the board and has the ability to impose its will on them.

The accompanying financial statements present information only on the funds maintained by the district and do not present information on the Commission, the general government services provided by that governmental unit, or the other governmental units that comprise the financial reporting entity.

B. Basic Financial Statements - Government-Wide Statements

The Caddo Parish Fire District No. 2's basic financial statements include both government-wide (reporting the funds maintained by the Caddo Parish Fire District No. 2 as a whole) and fund financial statements (reporting the Caddo Parish Fire District No. 2's major funds). Both the government-wide and fund financial statements categorize primary activities as either governmental or business type. The Caddo Parish Fire District No. 2's general fund, capital projects fund, and debt service fund are classified as governmental activities. The Caddo Parish Fire District No. 2 does not have any business-type activities.

In the government-wide Statement of Net Assets, the governmental activities column is presented on a consolidated basis and is reported on a full accrual, economic resource basis, which recognizes all long-term assets and receivables. The Caddo Parish Fire District No. 2's net assets are reported in three parts – invested in capital assets (net of related debt), restricted net assets, and unrestricted net assets.

The government-wide Statement of Activities reports both the gross and net cost of each of the Caddo Parish Fire District No. 2's functions. The functions are supported by general government revenues. The Statement of Activities reduces gross expenses (including depreciation) by any related program revenues, operating, and capital grants, which must be directly associated with the function. Operating grants include operating-specific and discretionary (either operating or capital) grants, while the capital grants column reflects capital-specific grants. The net costs (by function) are normally covered by general revenues.

This government-wide focus is more on the sustainability of the Caddo Parish Fire District No. 2 as an entity and the change in the Caddo Parish Fire District No. 2's net assets resulting from the current year's activities.

C. Basic Financial Statements - Fund Financial Statements

The financial transactions of the Caddo Parish Fire District No. 2 are recorded in individual funds in the fund financial statements. Each fund is accounted for by providing a separate set of self-balancing accounts that comprises its assets, liabilities, reserves, fund equity, revenues and expenditures. The various funds are reported by generic classification within the financial statements.

The following fund types are used by the Caddo Parish Fire District No. 2:

Governmental Funds – the focus of the governmental funds' measurement (in the fund statements) is upon determination of financial position and changes in financial position (sources, uses, and balances of financial resources) rather than upon net income. The following is a description of the governmental funds of the Caddo Parish Fire District No. 2:

- a. General funds are the general operating funds of the Caddo Parish Fire District No. 2. They are used to account for all financial resources except those required to be accounted for in another fund.
- b. The debt service fund is used to account for the accumulation of funds for the periodic payment of principal and interest on general long-term debt.

The emphasis in fund financial statements is on the major funds in the governmental category. GASB Statement No. 34 sets forth minimum criteria (percentage of the assets, liabilities, revenues, or expenditures/expenses of either fund category or the governmental and enterprise combined) for the determination of major funds. The district's general fund and debt service fund were both determined to be major funds.

D. Basis of Accounting

Basis of accounting refers to the point at which revenues or expenditures are recognized in the accounts and reported in the financial statements. It relates to the timing of the measurements made regardless of the measurement focus applied.

Accrual:

The governmental funds in the government-wide financial statements are presented on the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when incurred.

Revenues of the Caddo Parish Fire District No. 2 consist principally of property taxes, service charges on property, other intergovernmental revenues, grants, donations, and interest income. Property taxes and service charges are billed and collected within the fiscal year in which the taxes are levied. Property taxes are assessed on a calendar year basis, become due November 15 of each year, and become delinquent on December 31. Interest income is recorded when earned. Federal and state grants are recorded when the District is entitled to the funds, except for certain federal grants which require funds not expended to be returned to the funding source. On those grants revenue is recognized only upon expending those funds. Grant funds received but not expended are reflected in the financial statements as deferred revenue. Donations and other intergovernmental revenues are recorded when received in cash because they are generally not measurable until actually received.

Modified Accrual:

The governmental funds financial statements are presented on the modified accrual basis of accounting. Under modified accrual basis of accounting, revenues are recorded when susceptible to accrual: i.e., both measurable and available. "Available" means collectible within the current period or within 60 days after year-end. Expenditures are generally recognized under the modified accrual basis of accounting when the related liability is incurred. The exception to this rule is that principal and interest on general obligation long-term debt, if any, is recognized when due. Depreciation is not recognized in the governmental fund financial statements.

E. Budgets

The district uses the following budget practices:

- 1. A preliminary budget for the ensuing year is prepared by the Board of Commissioners in September of each year and is made available for public inspection.
- 2. After completion of all action necessary to finalize and implement the budget, the budget is adopted through passage of a resolution.
- 3. All budgetary appropriations lapse at the end of each fiscal year.
- The budget is established and controlled by the Board of Commissioners at the object level
 of expenditure. All changes in the budget must be approved by the board.
- 5. The budget is adopted on a cash basis for all funds. There was one amendment to the 2006 budget.

F. Cash, Cash Equivalents, and Investments

Cash includes amounts in petty cash, interest-bearing demand deposits, and money market accounts.

Cash equivalents include amounts in time deposits and those investments with original maturities of 90 days or less. Under state law, the district may deposit funds in demand deposits, interest-bearing demand deposits, or money market accounts with state banks organized under Louisiana law or any other state of the United States, or under the laws of the United States.

Investments are limited by Louisiana Revised Statue (R.S.) 33:2955. If the original maturities of investments exceed 90 days, they are classified as investments; however, if the original maturities are 90 days or less, they are classified as cash equivalents. Investments are carried at cost, which approximates market.

G. Capital Assets

Capital assets purchased or acquired with an original cost of \$1,000 or more are reported at historical cost or estimated historical cost. Contributed assets are reported at fair market value as of the date received. Additions, improvements, and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred.

Depreciation on all assets is provided on the straight-line basis over the following estimated useful lives:

Buildings 20 – 30 years Rescue & fire trucks 10 – 30 years Equipment 10 – 30 years

H. Deferred Bond Issuance Costs

In conjunction with the issuance of long-term debt for capital asset purchases, bond issuance costs were incurred. These costs are capitalized in the government-wide financial statements and amortized on a straight line basis over the term of the new bond issue. Included in interest expense for the year was amortization of \$964.

I. Long-term Debt

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities in the statement of net assets. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of related debt.

In the fund financial statements, governmental funds recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of the debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

J. Compensated Absences

The district has adopted the leave policies set forth in Louisiana Revised Statutes 39:1995 – 1999. Full-time employees of the district earn from 18 to 30 days of vacation leave each year, depending upon their length of service. As of December 31, 2006, employees of the district had no accrued vacation leave. This amount must be taken by the employee's anniversary date or it is forfeited. It is, therefore, recorded as a current liability in the fund and government-wide financial statements.

Employees of the district are entitled to full pay during sickness or incapacity not brought about by his own negligence or culpable indiscretion for a period of not less than 52 weeks. No accrual has been made for sick leave in the accompanying financial statements. The cost of sick leave is recognized as a current-year expenditure when leave is actually taken.

K. Prepaid items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in the government-wide financial statements.

L. Use of Estimates

Management uses estimates and assumptions in preparing financial statements. Those estimates and assumptions affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and reported revenues and expenses. Actual results could differ from those estimates.

M. Net Assets

Net assets represent the difference between assets and liabilities. Net assets invested in capital assets, net of related debt consist of capital assets, net of accumulated depreciation, reduced by the outstanding balance of any borrowing used for the acquisition, construction, or improvement of those assets. Net assets are reported as restricted when there are limitations imposed on their use either through constitutional provisions or enabling legislation adopted by the district or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. The district's policy is to first apply restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net assets are available.

N. Deferred Revenue

Deferred revenues arise when assets are recognized before the revenue recognition criteria have been satisfied. On governmental fund financial statements, receivables that were not collected within the available period are recorded as deferred revenue.

(2) Levied Taxes

The following is a summary of authorized and levied ad valorem taxes:

	Authorized <u>Millage</u>	Levied Millage	Expiration <u>Date</u>
Operating	10.00	10.00	2013
Debt Service	variable	3.90	2022

- (3) Cash and Cash Equivalents and Credit Risk
 - A. At December 31, 2006, the district had cash and cash equivalents (book balances) totaling \$319,202, as follows:

Petty cash	\$ 113
Demand deposits	681
Interest-bearing demand deposits	274,798
Time deposits	 43.610
•	\$ 319.202

These deposits are stated at cost, which approximates market. Under state law, these deposits (or the resulting bank balances) must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent.

B. Custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. As of December 31, 2006, \$178,408 of the district's bank balances totaling \$322,018 were exposed to custodial credit risk as follows:

Uninsured and collateral held by the pledging bank's Trust department not in the district's name:

Cash and cash equivalents

\$178,408

Even though the piedged securities are considered uncollateralized (Category 3) under the provisions of GASB Statement No. 3, Louisiana Revised Statute 39:1229 imposes a statutory requirement on the custodial bank to advertise and sell the piedged securities within 10 days of being notified by the district that the fiscal agent has failed to pay deposited funds upon demand.

(4) Capital Assets

Capital asset activity for the year ended December 31, 2006, was as follows:

	Balance at Jan. 1, 2006	Additions	<u>Deletions</u>	Balance at Dec. 31, 2006
Governmental Activities:				
Capital assets, not being deprecia	ted:			
Land	\$ 21,100	<u>\$ -</u>	<u>\$</u>	\$ 21,100

Vehicles	(238,515)	(28,660)		<u>(267,175)</u>
Total accumulated depreciation	(402,512)	<u>(76,156)</u>		(478,668)
Total capital assets, being				
depreciated, net	1,080,968	_(76,156)		1,004,812
Governmental activities capital				
assets, net	<u>5 1.102,068</u>	<u>\$ (76.156)</u>	<u> </u>	\$ 1.025.912

Depreciation expense for the year ended December 31, 2006, was \$76,156.

(5) Receivables

Receivables at December 31, 2006 consist of the following:

Ad valorem taxes	\$ 137,830
Service charge	114,200
	\$ 252,030

(6) Pension Plan

Certain employees of the District are members of the Louisiana Firefighters Retirement System (System), a cost-sharing multi-employer, defined benefit pension plan administered by a separate board of trustees. Membership in the Louislana Firefighters Retirement System is mandatory for all fultime firefighters employed by a municipality, parish, or fire protection district that did not enact an ordinance prior to January 1, 1980, exempting Itself from participation in the System. Employees are eligible to retire at or after age 55 with at least 12 years of creditable service or at or after age 50 with at least 20 years of creditable service. Upon retirement, members are entitled to a retirement benefit, payable monthly for life, equal to three and one-third per cent of their final-average salary for each year of credible service, not to exceed 100 percent of their final average salary. Final-average salary is the employee's average salary over the 36 consecutive months or joined months that produce the highest average. Employees who terminate with at least 12 years of service, and who do not withdraw their employee contributions, may retire at or after age 55 (or at or after age 50 with at least 20 years of creditable service at termination) and receive the benefit accrued to their date of termination. The System also provides death and disability benefits. Benefits are established by state statue.

The System issues an annual publicly available financial report that includes financial statements and required supplementary information for the system. That report may be obtained by writing to the Firefighters' Retirement System, Post Office Box 94095, Baton Rouge, Louislana 70804, or by calling (225) 925-4060.

Plan members are required by state statue to contribute 8.0 percent of their annual covered salary and the District is required to contribute at an actuarially determined rate. Contribution rates were 18 percent for January through June 2006, and 15.5 percent for July through December, 2006. The contribution requirements of plan members and the District are established and may be amended by state statue. As provided by Louisiana Revised Statue 11:103, the employer contributions are determined by actuarial valuation and are subject to change each year based on the results of the valuation for the prior fiscal year. The District's contributions to the System for year ended December 31, 2006, the fourteen month period ending December 31, 2005, and for the year ended October 31, 2004, were \$9,675, \$12,301, and \$5,111, respectively.

Other employees of the district who are not eligible to participate in the Firefighters' Retirement System are members of the Social Security System.

(7) Risk Management

The District purchases commercial insurance to provide workers compensation coverage and general liability and property insurance. There were no significant reductions in insurance coverage from the prior year.

(8) Long-term Debt

At December 31, 2006, long-term debt consisted of the following:

General Obligation Bonds – Series 2003 General Obligation Bonds, dated April 1, 2003, due in annual installments of \$15,000 – \$40,000 through April 1, 2023; interest at 3.0% – 5%. The bonds are secured by and payable from ad valorem taxes.

470,000

Changes in long-term debt for the year ended December 31, 2006 are summarized as follows:

	Balance	Issues-	Payments	Balance	Amount Due
	12/31/05	Additions	Expenditures	12/31/06	Within One Year
Certificates of Indebtedness	\$ 485.000	\$	\$ (15.000)	<u>\$ 470.000</u>	\$ 20,000

Annual requirements to retire long-term debt are as follows:

Year Ending			
December 31,	<u>Principal</u>	<u>Interest</u>	Total
2007	\$ 20,000	\$ 19,096	\$ 39,096
2008	20,000	18,096	38,096
2009	20,000	17,096	37,096
2010	20,000	16,296	36,296
2011	20,000	15,671	35,871
2012-2016	130,000	65,247	195,247
2017-2021	160,000	36,193	196,193
2022–2023	80,000	3,600	83,600
	\$ 470,000	\$ 191,295	\$ 661,295

(9) Interfund Balances

The interfund balance of \$14,888 is the result of entries needed to allocate the District's property tax millage between the general fund and the debt service fund.

(10) Contingency

The District is currently the defendant in one lawsuit. The ultimate outcome of the lawsuit cannot be determined at this time.

Caddo Parish Fire District No. 2 Shreveport, Louislana Notes to Required Supplementary Information December 31, 2006

The District's budget is adopted on a cash basis for all funds. There was one amendment to the 2006 budget. Budget comparison statements included in the accompanying financial statements include the original and adopted budgets. The schedule below reconciles excess (deficiency) of revenues and other sources over expenditures and other uses on the budget basis with GAAP basis:

	General Fund
Excess of revenues and other sources over expenditures and	
other uses (budget basis)	\$ 62,179
Adjustments:	
Revenue accruais – net	17,822
Expenditure accruals - net	<u>(2,217)</u>
Excess of revenues and other sources	
other uses (GAAP basis)	<u>\$ 77.784</u>
Adjustments: Revenue accruals – net Expenditure accruals – net Excess of revenues and other sources over expenditures and	17,822 <u>(2,217</u>

Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance With Government Auditing Standards

Board of Commissioners
Caddo Parish Fire District No. 2

We have audited the financial statements of governmental activities and each major fund of the Caddo Parish Fire District No. 2 as of and for the year ended December 31, 2006, which collectively comprise the Caddo Parish Fire District No. 2's basic financial statements, and have issued our report thereon dated June 17, 2007. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered Caddo Parish Fire District No. 2's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Caddo Parish Fire District No. 2's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of Caddo Parish Fire District No. 2's internal control over financial reporting.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects Caddo Parish Fire District No. 2's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of Caddo Parish Fire District No. 2's financial statements that is more than inconsequential will not be prevented or detected by Caddo Parish Fire District No. 2's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that result in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by Caddo Parish Fire District No. 2's internal control.

Our consideration of Internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Caddo Parish Fire District No. 2's basic financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

This report is intended solely for the information and use of management and others within the organization and is not intended to be and should not be used by anyone other than these specified parties.

Caddo Parish Fire District No. 2 Shreveport, Louisiana Summary Schedule of Audit Findings December 31, 2006

Summary Scheduje of Prior Audit Findings

There were no management letter comments for the prior year audit for the fourteen month period ended December 31, 2005. There were four findings for the prior year audit for the fourteen month period ended December 31, 2005, as follows:

Late Submission of Audit Report

Reference No:

2005-1

Description of Finding:

Caddo Parish Fire District No. 2 did not submit its audit report for the fourteen-month period ended December 31, 2005 within six months of its year end as required by state

law.

Current Status:

No finding in current year audit.

Debt Service Sinking Fund

Reference No:

2005-2

Description of Finding:

During our audit, we noted that the District is required to establish a sinking fund into which they will deposit the proceeds of a special tax millage, with said funds to be used for the payment of principal and interest on the District's general obligation bonds. We noted that a debt service checking account had been established; however, it was not being appropriately funded. The portion of the District's property tax millage levied for the debt service was not being deposited into said fund.

Current Status:

No finding in current year audit.

Adoption of Budget

Reference No:

2005-3

Description of Finding:

During our audit, we noted that there were no minutes available indicating adoption of the budget for the fourteen-month period ended December

31, 2005.

Current Status:

No finding in current year audit.

Caddo Parish Fire District No. 2 Shreveport, Louisiana Summary Schedule of Audit Findings December 31, 2006 (Continued)

Budget Amendment

Reference No:

2005-4

Description of Finding:

The District did not amend its budget in accordance with the Local Government Budget Act. Total actual expenditures exceeded budgeted

expenditures by five percent or more.

Current Status:

No finding in current year audit.

Corrective Action Plan for Current Year Audit Findings

There are no findings or management letter comments for the current year audit for the year ended December 31, 2006.
